

## 23. Renovated Stream or Naturalized Area

Definition	<b>A restored stream area.</b>
Size	A nature area should be provided as a single tract of 5,000 square feet or a series of linked tracts that total 5,000 square feet.
Possible Activities	Hiking, nature study and other passive outdoor recreational activities.
Location	Where indicated in local area plan.
Design Criteria	<p>Consider comprehensive strategies to return the area's ecosystems to a stable, healthy condition.</p> <p>Ensure the early and continued participation of all state and local agencies with applicable jurisdiction.</p> <p>Where indicated by a local area plan, incorporate public amenities accessible to the community that include areas for passive recreation and educational opportunities.</p> <p>Consider signage to describe stream restoration or a tablet or phone app to provide information about the restored area.</p>
Components	<b>Delineated path, interpretive signage, seating.</b>
