COMMENTS		
Suggestions for follow-up:		
• It seems that a neighboring farmer is cutting the grass. Should be checked regularly.		
• Ground probing or GPR in the middle to detect fallen stones or human remains.		
• The wooden cemetery sign that was there in 2000 is now gone. Should be replaced with a metal sign.		
Safety issues, invasive vegetation removal, fence removal/restoration, signage, trash, erosion, vandalism:		
• If possible, park in Parking Lot 2. Facing south, go to far right of the lot and walk .25-mile into woods. (see map)		
Anything of significance about this cemetery?		
• Burial location of workers and their family members from the former Triadelphia mill town community, established in 1809, was flooded in 1943, and destroyed to make way for the Triadelphia Reservoir.

If possible, park in WSSC Parking Lot #2, now covered in grass.
 (If the security gate is down, park at the temporary parking lot and walk ½-mile along the road to WSSC Parking Lot #2)
 Continue walking ¼-mile south through the woods
 along the pathway marked in yellow above to get to the cemetery.
 (DO NOT CUT DIRECTLY THROUGH THE WOODS)

Location of Triadelphia in 1938, now under the reservoir.
