Dr. J. Thomas Kelley,
2300 Californian Ave.,
Washington, D.C.,

Dear Dr. Jofu: -

Now aren't you surprised to receive a letter from an old Andrew Small Academy school mate? ah! left those were great days and that was a great school - and those of us whose privilege it was to attend there have cause to be very thankful for having had that privilege.

I hear that you are still quite active - and so am I, well I - guess we are two tough ones and lets keep on being tough and active.

Some one advised me that you or some of your folks at Darnestown have

(over)

been doing some clearing
up of the old grave yard
at Pleasant Hill which is
good news to me and I
hope you will be able to
make a clean job of it.

I suppose our family is
more concerned than any
other family I know of.
My father and brothers are
buried there in that wilder-
ness which is a disgrace
to the neighborhood and
certainly does not add any
thing to your property.

I want you to know that
so far as we are concerned
I would like it cleared up
and worked over. Would it
be possible for you to take
title to it and throw it
into your field?

The tomb stones could be
laid down over the graves
and covered up deep enough
to be worked over.

Rose and I are the last
members of our family

to have any interest there,
and we are agreed on
the above.

Of course I do not know
what your plans are
concerning it, but I wanted
you to know that whatever
you wish to do with it will
be all right with us.

With ^{best} regards and good wishes
to you, I am

yours very sincerely
Fredk. Clagett
