

HISTORIC PRESERVATION COMMISSION

Marc Elrich
County Executive

Robert Sutton
Chairman

Date: June 8, 2023

MEMORANDUM

TO: Rabbiah Sabbakhan
Department of Permitting Services

FROM: John Liebertz
Historic Preservation Section
Maryland-National Capital Park & Planning Commission

SUBJECT: Historic Area Work Permit #1017737: Construction of rear deck

The Montgomery County Historic Preservation Commission (HPC) has reviewed the attached application for a Historic Area Work Permit (HAWP). This application was **Approved with four (4) conditions** at the May 24, 2023, HPC meeting, and amended and approved by staff.

- The amendment replaced all the approved cellular polyvinyl chloride decking and railing with wood. All other aspects of the design, dimensions, etc. will remain the same.**

The HPC staff has reviewed and stamped the attached construction drawings.

THE BUILDING PERMIT FOR THIS PROJECT SHALL BE ISSUED CONDITIONAL UPON ADHERENCE TO THE ABOVE APPROVED HAWP CONDITIONS AND MAY REQUIRE APPROVAL BY DPS OR ANOTHER LOCAL OFFICE BEFORE WORK CAN BEGIN.

Applicant: Garrett Anderson
Address: 104 Water Street, Brookeville

This HAWP approval is subject to the general condition that the applicant will obtain all other applicable Montgomery County or local government agency permits. After the issuance of these permits, the applicant must contact this Historic Preservation Office if any changes to the approved plan are made. Once work is complete the applicant will contact John Liebertz at 301.563.3403 or John.Liebertz@montgomeryplanning.org to schedule a follow-up site visit.

Written Description:

We would like to add a 14 x 15'6" deck to the back of our house where the steps currently are. The deck is not visible from the road. The foundation of the structure will be built with pressure treated wood, the decking and railing will be built with ~~PVC~~. The deck will be located within the boundary of the home and 9+ feet away from the property line adjacent to 106 Water Street.

Note: The deck design tool only had brick as an available siding material, there will be NO changes to the home or existing materials.

EDIT: Decking and railing material has been updated to be pressure treated pine.

Site Plan:

See Deck Design attachment.

Materials:

Decking: ~~TimberTech Landmark Standard PVC (5.5")~~ Pressure Treated Pine

Railing: ~~TimberTech Pinnacle Rail™ PVC~~ Pressure Treated Pine

See attachments for more details.

1. **Riser** - Vertical board that provides a finished look to the front of a stair step.
2. **Fascia** - Vertical board that provides a finished look covering the sides of a deck sub-structure.
3. **Rail Post** - The vertical post connected to the deck framing that supports the railing.
4. **Bottom Rail** - Horizontal rail that connects the bottom of the posts and the infill.
5. **Infill** - Connects between the posts and in between the top rail and bottom rail.
6. **Decking** - The boards used to make the walking surface of the deck.
7. **Post Cap** - Cap on top of the post that is a decorative finish.
8. **Top Rail** - Horizontal rail that connects the top of the posts and support balusters or other infill.
9. **Support Rail** - The horizontal rail at the top of a railing system providing a structural base to the top rail.
10. **Post Sleeve** - Hollow sleeve that fits over a rail post.
11. **Post Skirt** - Finishing piece at the base of the post sleeve that covers any cuts where the decking and railing meet.

Project Considerations

You've designed the deck of your dreams and are ready to turn that dream into a reality. As you begin planning for the installation of your deck, here are a few factors to consider.

Obtain a Permit

Check your local building codes and get a permit if needed. This is usually required for any structure, such as a deck, that necessitates the installation of footings. You don't want to receive a note from the city notifying you that your deck isn't up to code. Plus, you'll want to make sure it's safe and secure for loved ones and visitors.

Consult a Professional or DIY

Before ordering materials, be sure to decide if you want to hire a contractor or do the project yourself. A professional contractor can review your design to help determine the feasibility and review the list of materials for accuracy.

Visit [TimberTech.com](https://www.timbertech.com) to [Find a Contractor](#) or [Get DIY Help](#).

Get More Info

If you are wanting to see examples of completed projects loved by homeowners or looking for advice on color combos, visit our [Decking Design Center](#) or browse the [Design Guide](#).

You can also [Get a Cost Estimate](#) or learn [Where to Buy](#) our products.

Order Free Samples

Can't decide on which decking color or railing shape is right for you? [Order free samples](#) to see them in person and choose your favorite.

Designing with Safety in Mind

We want to provide a great deck designing experience that enables you to plan the deck of your dreams. We also want that outdoor space to be safe for you and your guests. Please read the following disclaimer and disclosure carefully. Using our deck designer tool implies you have read this information and agree to its terms and conditions listed below.

A Note About This Tool

The suggested design is a design guide and is NOT a finished building plan. It is your responsibility to verify its accuracy, completeness, suitability for your particular site conditions, and compliance with local building codes and practices. Please consult your local building codes for requirements for deck lighting, railing, and stairs.

AZEK Building Products and its affiliates assume no responsibility for any damages, including direct or consequential, personal injuries suffered, or property or economic losses incurred as a result of the information published within this Deck Designer, AZEK Building Products and its affiliate websites or Deck Design Detail Report. Before beginning any project, review the instructions carefully. We cannot anticipate all of your working conditions or the characteristics of your materials and tools. For your safety, you should consider your own skill level and use caution, care and good judgment when following the instructions. If you have doubts, concerns or questions, consult local experts, architects, soil engineers or building authorities. Because local zoning and building codes and regulations vary greatly, you should ALWAYS CHECK WITH LOCAL AUTHORITY TO VERIFY THAT YOUR PROJECT COMPLIES WITH ALL APPLICABLE CODES AND REGULATIONS. You must observe instructions and safety precautions provided by any tool or product used and all accepted safety procedures.

You are responsible for ensuring that all measurements are correct and that the design and any substitutions or modifications you make are safe and suitable for your intended use. For more information, please refer to the full Installation Guidelines on all products for more details regarding installation as well as information on care and maintenance, storage and handling, reference to warranty coverage, and other important product information.
