Historic Area Work Permit Details

Work Type ALTER

Scope We are seeking to lay down pervious pavers in the small fenced in patio (12'x13') area on the front of our home. I have some left over pavers from of our driveway and I wanted to use. We are simply tired of the weeds and mud and wanted to make this space useful, attractive and match our Work driveway without spending too much while still maintaining some drainage. They will not be permanent (laid in sand)
