Marc Elrich
County Executive

Robert K. Sutton Chairman

Date: September 10, 2024

#### **MEMORANDUM**

TO: Rabbiah Sabbakhan, DPS Director Department of Permitting Services

Dan Bruechert

FROM: Historic Preservation Section

Maryland-National Capital Park & Planning Commission

Historic Area Work Permit #1069299 & 1070638 - Fenestration

SUBJECT: Alteration, Porch Rehabilitation, and Siding Replacement

The Montgomery County Historic Preservation Commission (HPC) has reviewed the attached application for a Historic Area Work Permit (HAWP). This application was <u>approved</u> at the September 4, 2024 HPC meeting.

The HPC staff has reviewed and stamped the attached construction drawings.

THE BUILDING PERMIT FOR THIS PROJECT SHALL BE ISSUED CONDITIONAL UPON ADHERENCE TO THE ABOVE APPROVED HAWP CONDITIONS AND MAY REQUIRE APPROVAL BY DPS OR ANOTHER LOCAL OFFICE BEFORE WORK CAN BEGIN.

Applicant: Lawrence Smith

Address: 15911 Redland Rd., Derwood

This HAWP approval is subject to the general condition that the applicant will obtain all other applicable Montgomery County or local government agency permits. After the issuance of these permits, the applicant must contact this Historic Preservation Office if any changes to the approved plan are made. Once work is complete the applicant will contact Dan Bruechert at 301-563-3408 or dan.bruechert@montgomeryplanning.org to schedule a follow-up site visit.

▼AuraLast pine products backed by a limited lifetime warranty against wood rot and termite damage.

Note: Payment requirements - for Builders with an credit account set up with TNT Services Group payment is required NET 30. For persons without a credit account set up the required payment schedule is: 50% down prior to releasing order into production 40% due prior to installation/delivery. 10% due after screens and hardware have been installed. \* If project is delivery only 50% is required prior to delivery. Pre-finished interior disclaimer – interior pre-finished products will be subjected to construction trades, dust and debris during the construction process. It is highly recommended the windows be, at a minimum, covered with plastic to mitigate the dust accumulated on the painted surface. Additionally, as you have requested to have a factory finish installed so early in the build process it should be expected some damage will occur from trades (such as dings and scratches) and it is not a defect of the window or a cause of TNT Services Group. If any window part has been damaged during the construction process, TNT will advise of the best course of action to remedy and any action (repair or replacement) would be chargeable by TNT Services Group. Furthermore, as you would be purchasing a factory wood painted part it should be made known that as wood has variations and the appearance of a raised grain or other natural variation in the wood grain may be enhanced by the interior finish and is not a defect (variations and grain raise would be more noticeable on darker finishes such as black or bronze). Interior finish is applied prior to assembly and is not intended to cover joinery seams. I have read, understand and approve the specifications detailed above for order:
