## DESCRIPTION OF PROPOSED WORK

Additions to the exterior of the house occur on the north, east and south elevations. In all cases, traditional materials will be used to match existing conditions. These include clapboard siding (painted to match existing), painted wood trim and porch elements, wood double-hung windows and other framed glazing areas. All new roof slopes match existing.

To the north, the existing entry is moved out and widened, reusing the existing door. The existing kitchen is expanded with a 2'-0" deep cantilevered bay window.

To the south, the recently added porch is removed and replaced with a breakfast room and a larger porch similar in detail to the existing front porch. At the second level, a new bedroom and bath are added.
