FROM: Bobbi Hahn, Executive Director *BH*
Historic Preservation Commission

SUBJECT: Addition to garage,
11204 Kenilworth Avenue, Garrett Park

I have reviewed the application of C.H. & D.H. Unterman to put an addition on a rear garage at the above address which is located within the Atlas historic district of Garrett Park (#30/13). As the garage is of recent construction and the addition is compatible to it, it is my determination that the work will not substantially alter the exterior features of an historic resource or the historic district in which it is located. We therefore have no objection to the issuance of a permit for the work.
