FROM: Bobbi Hahn *BH*
Historic Preservation Commission

SUBJECT: 531 Albany Avenue, Takoma Park

I have reviewed plans for the reworking of the front door treatment at 531 Albany Avenue, Takoma Park Atlas historic district including installation of sidelights and a new front door. I find that this work will not be substantially altering the historic resource as it will be reconstructing the original doorway. You may issue a permit for the work as per attached plans.
