MEMORANDUM

September 10, 1985

TO: David Wheeler  
DEP

FROM: Bobbi Hahn *BH*  
Historic Preservation Commission

SUBJECT: Alterations to 7112 Maple Ave., Takoma Park

At its September 5, 1985 meeting the Historic Preservation Commission retroactively reviewed the enclosure of a rear porch at the above noted address which is within the Atlas historic district of Takoma Park. The Commission approved the work but did so with serious concerns about the procedure involved. The applicants, Steven Quick and Barbara Beelar, had gone through the approval process before so they should have been fully aware of the procedure. They stated that their builder came much more quickly than they had anticipated and therefore went ahead with the work before the HPC had a chance to review it.

Could you please check to see if a permit was ever issued for this work? The enclosed area was made into a kitchen but I am not sure if a county permit is required. We would certainly encourage you to issue a citation to the owners if there was any irregularity in the permit or building process.
