SEE REVERSE SIDE FOR INSTRUCTIONS

THE FOLLOWING ITEMS MUST BE COMPLETED AND THE REQUIRED DOCUMENTS MUST ACCOMPANY THIS APPLICATION

DESCRIPTION OF PROPOSED WORK: (including composition, color and texture of materials to be used:)

- ① remove aluminum siding, replace wood siding, rebuild chimney west end, and rebuild existing chimney from roof line.
- ② put wood siding on south brick addition and change windows to more closely match windows on older portion of the house (probably 6 over 6)
- ③ put (2) shed roof dormers on south side of main roof (to match shed roof dormer on old 1½ story addition)
- ④ remove asbestos shingles and put shake roof in place on old part of house, put raised seam tin roof on south addition with one skylight.
- ⑤ remove chimney on south addition.
- ⑥ remove Norway spruce from northeast corner of the house (planted in 1954 and too close to house, only 5 feet from house).

(If more space is needed, attach additional sheets on plain or lined paper to this application)

ATTACH TO THIS APPLICATION (2) COPIES OF: SUCH SITE PLANS (lot dimensions, building location with dimensions, drives, walks, fences, patios, etc. proposed or existing) and/or ARCHITECTURAL DRAWINGS (floor plans, elevations, etc.), PHOTOGRAPHS OF THE AREA AFFECTED, as are necessary to fully describe the proposed work.

MAIL OR DELIVER THE APPLICATION AND ALL REQUIRED DOCUMENTS TO THE:

MY COMMISSION EXPIRES
JULY 1, 1990

Spring, a position which he held for 53 years. The house served as the community's first post office. Edward was a founder of the Mutual Fire Insurance Company; an innovator, introducing the use of Peruvian guano fertilizer in 1844; and a skilled engraver whose seals and stamps were used by state and federal agencies. In 1925 Harewood was purchased as a summer retreat by Dean G. Acheson, Secretary of State under Harry Truman, and remained in the family until 1977. *-ship?*

23/93 Sharon (1795) 18430 Brooke Grove Road [18201 Marden Lane]

This modest dwelling was the home of Isaac Briggs (1763-1825), nationally influential engineer, scientific farmer, and surveyor. Briggs came from Pennsylvania in 1793 to survey the new District of Columbia. He married Hannah Brooke and settled here, building a log house about 1795. Thomas Jefferson appointed his trusted friend Briggs as Surveyor General of Mississippi Territory, stating, "He is Quaker, a sound Republican, and of a pure and unspotted Character. In point of science, in astronomy, geometry and mathematics he stands...second to no man in the United States." Briggs was a chief engineer of the Erie Canal and succeeded his brother-in-law Thomas Moore as chief engineer of the James River and Kanawha Canal. A strong proponent of scientific farming, in 1803 Isaac Briggs founded, with James Madison, the American Board of Agriculture, forerunner of the Department of Agriculture, and was elected its first secretary with Madison serving as president. Briggs, with his brothers-in-law, developed the mill village of Triadelphia.

The main block of the Briggs' house is a two story log structure built in 1795. The east wing is built of log and frame, with a more recent brick rear section. According to tradition, the property became known as Sharon under ownership of daughter Sarah in honor of the valued roses she grew. Grandson James P. Stabler, Jr. constructed in 1878 the first telephone line in the county, running between Sharon and nearby Brooke Grove. *restored in 1920s by Briggs & family*

23/26 The Oaks/Riggs House (c1797-1814) 5815 Riggs Road
National Register

With its gambrel roof form and log construction, The Oaks represents the persistence of traditional building techniques. This dwelling was built some 50 years after gambrel roof houses were built elsewhere in the region. Both the main block and kitchen wing are log with weatherboard siding. The main house has brick chimneys, while the kitchen wing has a massive stone base chimney. Two front doors open into separate parlors in a tradition characteristic of southern Pennsylvania and northern Maryland houses. One parlor contains a fine paneled mantel wall and a tight winder stair leads to the second level. In 1797 Samuel Riggs acquired this property of 223 acres. His son Reuben was already residing here when he inherited the land upon Samuel's death in 1814. The Riggs family were prominent tobacco planters active in civic life. Expanding the plantation to 800 acres, Reuben and wife May Thomas Riggs prospered, living here most of their lives. The property includes a bank barn with stone foundation and board and batten smoke house. All buildings including the house were moved to their current location in 1980. *donated to state property*
