HISTORIC PRESERVATION COMMISSION

Isiah Leggett County Executive

Jef Fuller Chairperson

• •

Date: May 11, 2007

MEMORANDUM

TO:	Reggie Jetter, Acting Director Department of Permitting Services
FROM:	Josh Silver, Planner Historic Preservation Section Maryland-National Capital Park & Planning Commission

SUBJECT: Historic Area Work Permit #450252, gate and fence installation

The Montgomery County Historic Preservation Commission (HPC) has reviewed the attached application for a Historic Area Work Permit (HAWP). This application was <u>Approved with Conditions</u> at the May 09, 2007 meeting.

1. The new 4' high, wood picket fence, double door vertical board gate, and single gate will be painted or stained.

The HPC staff has reviewed and stamped the attached construction drawings.

THE BUILDING PERMIT FOR THIS PROJECT SHALL BE ISSUED CONDITIONAL UPON ADHERENCE TO THE ABOVE APPROVED HAWP CONDITIONS AND MAY REQUIRE APPROVAL BY DPS OR ANOTHER LOCAL OFFICE BEFORE WORK CAN BEGIN.

Applicant: Katherine Konschnik

Address: 7123 Maple Ave, Takoma Park

This HAWP approval is subject to the general condition that the applicant will obtain all other applicable Montgomery County or local government agency permits. After the issuance of these permits, the applicant must contact this Historic Preservation Office if any changes to the approved plan are made.

	Disapproved:
	Edit 6/21/99 SEE REVERSE SIDE FOR INSTRUCTIONS

THE FOLLOWING ITEMS MUST BE COMPLETED AND THE REQUIRED DOCUMENTS MUST ACCOMPANY THIS APPLICATION.

1. WRITTEN DESCRIPTION OF PROJECT

а

Ker Pring

a.	Description of existing structure(s) and environmental setting, including their historical features and significance:
	There is currently no gate across driveway. In the
	back, there is currently a chain link feace along
	one side of the property, partially covered with
	a board fence (80%) is gone or broken). There is no
	historical significance to this fence

b General description of project and its effect on the historic resource(s), the environmental setting, and, where applicable, the historic district DGAHEACYOSSAMVEWAM - Will be a 6+6+7aCU vertical

board gate, doniste doors with singk archaeross both of pressure treated word, Takoma police free providences have sufficient this gate to stop people from wander of down that strip of tand between my horse of the Dance Exchange Building, which looks like an interdesped site and environmental setting, drawn to scale. You may use your plat. You site plan must include to enhance setting Fence a. the scale, north arrow, and date: b. dimensions of all existing and proposed structures; and finces in Takoma historic district.

c. site features such as walkways, driveways, fences, ponds, streams, trash dumpsters, mechanical equipment, and landscaping.

3. PLANS AND ELEVATIONS

You must submit 2 copies of plans and elevations in a format no larger than 11" x 17". Plans on 8 1/2" x 11" paper are preferred,

- a. Schematic construction plans, with marked dimensions, indicating location, size and general type of walls, window and door openings, and other fixed features of both the existing resource(s) and the proposed work.
- b. Elevations (facades), with marked dimensions, clearly indicating proposed work in relation to existing construction and, when appropriate, context. All materials and fixtures proposed for the exterior must be noted on the elevations drawings. An existing and a proposed elevation drawing of each facade affected by the proposed work is required.

4. MATERIALS SPECIFICATIONS

General description of materials and manufactured items proposed for incorporation in the work of the project. This information may be included on your design drawings.

5. PHOTOGRAPHS

- a. Clearly labeled photographic prints of each facade of existing resource, including details of the affected portions. All labels should be placed on the front of photographs.
- b. Clearly label photographic prints of the resource as viewed from the public right-of-way and of the adjoining properties. All labels should be placed on the front of photographs.
- 6. TREE SURVEY NA

If you are proposing construction adjacent to or within the dripline of any tree 6" or larger in diameter (at approximately 4 feet above the ground), you must file an accurate tree survey identifying the size, location, and species of each tree of at least that dimension.

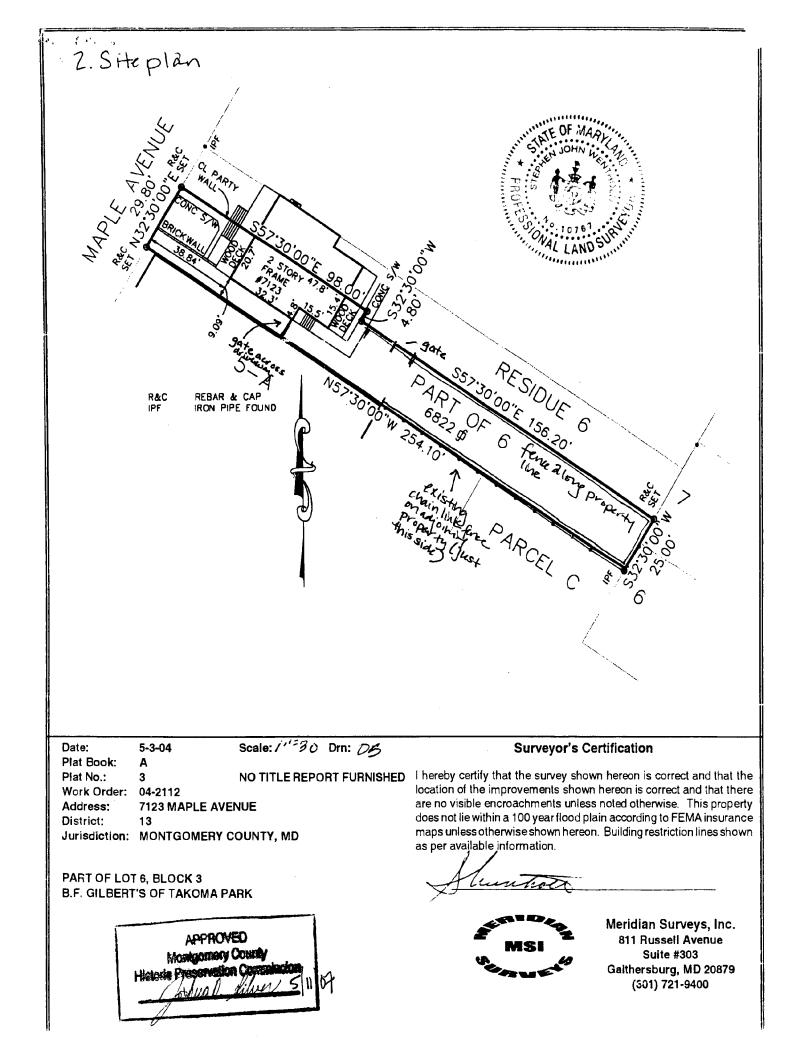

7. ADDRESSES OF ADJACENT AND CONFRONTING PROPERTY OWNERS

For <u>ALL</u> projects, provide an accurate list of adjacent and confronting property owners (not tenants), including names, addresses, and zip codes. This list should include the owners of all lots or parcels which adjoin the parcel in question, as well as the owner(s) of lot(s) or parcel(s) which lie directly across the street/highway from the parcel in question. You can obtain this information from the Department of Assessments and Taxation, 51 Monroe Street, Rockville, (301/279-1355).

PLEASE PRINT (IN BLUE DR BLACK INK) OR TYPE THIS INFORMATION ON THE FOLLOWING PAGE. PLEASE STAY WITHIN THE GUIDES OF THE TEMPLATE, AS THIS WILL BE PHOTOCOPIED DIRECTLY ONTO MAILING LABELS.

Over 50 Years of Excellence

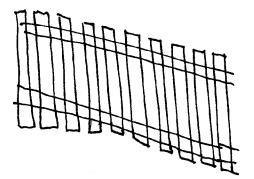

Description of Gate and Fence

1) The gate will be a vertical board design, with an arched top. It will be 6' tall and made of pressure treated wood. The following page shows what vertical board looks like, and what the arched gate will look like. The one difference is that I propose to install a double gate, with a single arch design across both (like the drawing below):

2) The fence will be a wood picket design, with a flat top. It will be 4' tall and made of pressure treated wood. The next page shows a colonial gothic wood picket fence. The one difference is that I propose to install a simpler fence, without the gothic cap on each post (like the drawing below):

APPROVED Monigomony County Historia Preservation Commission iln M

Custom Wood

- LONG® FENCE wood fencing is constructed from pressure treated preserved lumber to protect against rot, decay and termites.
- · All our treated wood products also contain WeatherShield" water repellent, an additive for greater protection against the elements.
- · We have many fence styles available to create the right look for any fencing project.

Wyngate

Chain Link

· LONG® FENCE chain link features a high tensile steel framework which is immersed in pure zinc to

provide maximum protection and durability against

· High quality All Color System¹⁰ fencing is available

PROPOSAL:	Gate and fence installation		

EXPEDITED MONTGOMERY COUNTY HISTORIC PRESERVATION COMMISSION STAFE DEPODT

RECOMMENDATION: Approval with condition

STAFF RECOMMENDATION:

Approval Approval with conditions

The condition of approval is:

11

1. The new 4' high, wood picket fence, double door vertical board gate, and single gate will be painted or stained.

ARCHITECTURAL DESCRIPTION

SIGNIFICANCE:Outstanding Resource Within The Takoma Park Historic DistrictSTYLE:Italianate (Duplex)DATE:c1880s

PROPOSAL:

The applicant is proposing three small outside projects. All three projects will be completed on the sides and in rear of the house.

Project Description:

1. Install a 6' tall x 10' wide double door vertical board gate, with a single arch across the driveway to secure an alleyway immediately adjacent to the right side of the house. The applicant is also proposing to landscape in front of the gate to enhance the setting. (Installation of the gate has been suggested by the local police department and neighbors to stop people from wandering down the alleyway). (See pages: 7 & 8).

- 2. Install a 4' tall, pressure treated wood fence, with flattop pickets along the southeastern, eastern, and northeastern sides of the subject property. (See pages: 7 & 9).
- 3. Install a 4' tall x 36" wide single gate along the northeastern side of the house. The proposed gate is approximately 15' from the existing wooden deck and concrete slab on the rear of the house. (See page: 6).

Approval is based on the following criteria from Chapter 24A of the Montgomery County Code, Section 8(b): The commission shall instruct the director to issue a permit, or issue a permit subject to such conditions as are found to be necessary to insure conformity with the purposes and requirements of this chapter, if it finds that:

- ☑ 1. The proposal will not substantially alter the exterior features of an historic site, or historic resource within an historic district; or
- ✓ 2. The proposal is compatible in character and nature with the historical, archeological, architectural or cultural features of the historic site, or the historic district in which an historic resource is located and would not be detrimental thereto or to the achievement of the purposes of this chapter; or
- 3. The proposal would enhance or aid in the protection, preservation and public or private utilization of the historic site, or historic resource located within an historic district, in a manner compatible with the historical, archeological, architectural or cultural value of the historic site or historic district in which an historic resource is located, or
- 4. The proposal is necessary in order that unsafe conditions or health hazards be remedied; or
- **5**. The proposal is necessary in order that the owner of the subject property not be deprived of reasonable use of the property or suffer undue hardship; or
- 6. In balancing the interests of the public in preserving the historic site, or historic resource located within an historic district, with the interests of the public from the use and benefit of the alternative proposal, the general public welfare is better served by granting the permit.

and with the general condition that the applicant shall present the 3 permit sets of drawings – if applicable – to Historic Preservation Commission (HPC) staff for review and stamping prior to submission for the Montgomery County Department of Permitting Services (DPS) building permits.

Re: Proposed fence installation at 7123 Maple Avenue

Ms. Konschnik:

This letter is in response to a revision to your approved HAWP (DPS#450252) for the installation of a 4' tall, wooden picket fence and gate on the above referenced property. Your request to change the approved 4' tall wooden picket fence located along the south property line of your property to a 6' tall wooden picket fence was approved by the Historic Preservation Commission (HPC) at the June 27, 2007 meeting. Any additional exterior alterations and revisions to this site must be reviewed by the HPC prior to the project's commencement.

This letter will serve as your official approval for this alteration. If you have any additional questions, please do not hesitate to contact me at 301-563-3400. Thank you for your cooperation and assistance in this matter.

Sincerely,

John D. film

Joshua D. Silver Senior Planner

Cc: Carla Reid Joyner, Department of Permitting Services

June 27, 2007 Staff Item

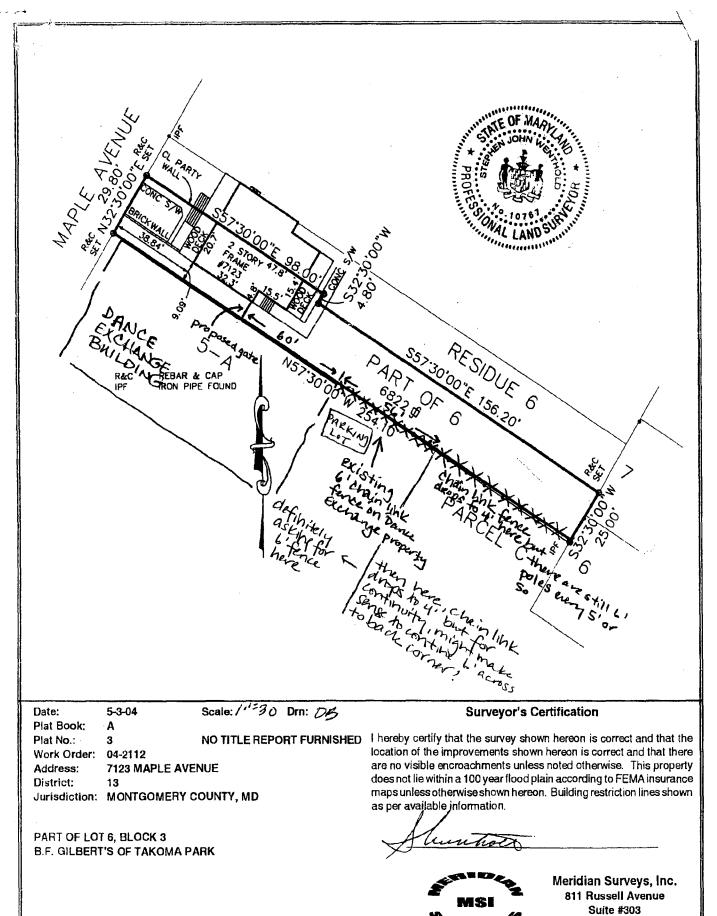

On May 9, 2007 the HPC approved a gate and fence installation at 7123 Maple Avenue in Takoma Park (Outstanding Resource).

The applicant is proposing <u>one</u> change to what was previously seen and approved by the HPC. The change is as follows:

• The applicant would like to install 6'0" tall wooden picket fence along the south side of the subject property. The HPC previously approved a 4'0" tall wooden picket fence in the same location. The applicant is requesting this change in order to obscure an existing 6'0" tall chain link fence located on the adjacent property. (See site plan on reverse side for details).

No change in style will occur, the proposed change is at the rear of the house, and extends beyond the rear plane of the house. If the HPC agrees with the proposed change, staff will approve it.

-> Approved 6 27 07

fenceproposal.pdf

<<fenceproposal.pdf>> Hi, Joshua - I don't have a digital camera. I am
working on borrowing one but figured in the meantime I would get the
plat with the x's drawn on it.

Here is the situation. For about 60' from the proposed gate back along the left side of the property (if you're standing in the back yard facing the back of my house), there is the brick side of the Dance Exchange. At the end of the Dance Exchance and for another 56' or so, there is a 6 foot tall chain link fence following the property line (and extending for the length of the Dance Exchange parking lot). This portion I would definitely like to build a 6' tall picket fence (style as described in my approved plans) to mask the chain link fence.

For the rest of this side of the property line, the chain link fence drops to 4', but there is still a 6' pole every 5' or so. It would not be necessary to continue to have a 6' picket fence along this portion, perhaps, but given the 6' poles and given the need for continuity along the one side, I am proposing to build a 6' tall fence all the way to the back corner. The back and other side would still only be 4'.

Thanks, Joshua. I will forward on pics as I get them.
